TRANSLATION

D: Write the Persian equivalents of the following words

17. information technology.....

18. intangible.....

19. linkage.....

E: Translate the following passage into Persian.

The British Institute of Public relations (BIPR) defines public relations as the deliberated plan and sustained effort to establish and maintain mutual understanding between an organization and its publics. This definition suggests that public relations are the creation or establishment of mutual understanding between an organization and its publics. It also suggests that public relations are not a haphazard process. It must be consciously designed.
